September 2016 — January 2017
5 months

NDA Private Company
USA

FullStack JS Developer

Developing of Article Recommendation Widget on medical topic.
I have worked in three teams (one command is about 5-7 people). In first and second was in role of FullStack JS Developer (database migrations, new business logic and bugfixes).
Every morning scrum meetings. Time accounting was performed using Rescuetime app and chrome extension.
Communication through Discord and Quip for issues tracking and documentations.
In total the company counted more than 70 people of remote developers from all sides of the world.
Used Stack: MeteorJS, ES6, React, Flux, CoffeeScript, Sequelize, Elastic Search, Druid, Postgress, GitLab, GIT.

| July 2016 — August 2016
2 months | **Gallop Travel**
Singapore, gallop.travel/ |
| | JS Dev |

Developing of part of travel service with stack: React, Redux, React-Router, Redux-Thunk, BEM, LESS, Pyrus.

The experience turned out to be short, as the management decided to take a break.
But for me this experience was useful, since it was my first fulltime remote job.

| October 2011 — August 2016
4 years 11 months | **IntraHouse**
Cheboksary, intrahouse.eu/ |
| | FullStack JavaScript Developer |

My first job where I worked for four years and became a developer.
Developed a SPA for IntraHouse (intrahouse.eu) SmartHouse system (demo still available on intrahouse.io:8088) that is worked on smartphones, tabs and pc browsers.
Started from jqTouch and jQueryMobile, then write kind of a framework based on requirejs, socket.io, jquery, eventemitter of backbone.
Participated in the exhibition of our product in GITEX2014 in Dubai.
Additional challenges:
Secure protocol between client and server.
Store with ability to buy and upgrade customers system with license and plugins.
Used Stack: jQuery, EventEmitter, RequireJS, NodeJS, MongoDB, Socket.io, HTML5.
